TIMEWELL's equipment rentals program is unique to the drainage industry

We are the only company in the industry who can help your business grow through commercial tile plow rentals for people serious about system drainage.

Complete Line of Drainage Equipment

TIMEWELL's equipment rental program is unique to the drainage industry. The program is tailored to the needs of professional contractors and today's top producers.

What the program offers:

- Top quality drainage equipment and accessories including commercial self-propelled tile plows and all support equipment.
- Painless business expansion.
- Complete control of your capital, with no need to borrow money.
No principal, interest or depreciation!
- Complete and thorough operation and procedure training.
- System Design Services for your field layouts.
- Business growth through new methods of promoting and marketing your capabilities.
- Tax incentives in some states.
- Increased production capacity - the highest in the business!

Drainage Consulting

As a courtesy to our customers, TIMEWELL will provide experienced field technicians to survey and design the most effective systems for your drainage projects. With TIMEWELL, you not only have a quality supplier, you have a dedicated team member with more than fifty years of practical drainage experience.
